

HALL'S THEODORE WHOLESALE FLORIST

Halls Mobile, Hutch Galloney

WF & FSA Member

Halls Mobile is a Cut Flower and Floral Supplies Distributor.

They went live on ProTrac in 2006

Why I chose ProTrac for my software package:

From the moment that I met PDSI, they listened to me and what I needed for my Cut Flower Wholesale business. Customer Service was their top priority. They listened and they accommodated my needs. They made changes specifically for Cut Flower Wholesalers and they demonstrated ProTrac's adaptability. When we coupled the flexibility of ProTrac with a caring and knowledgeable support people then ProTrac was the correct way for Hall's Mobile, to go. .

With my old system customers had to wait to get their invoice as only a few people could create an invoice. With ProTrac's Point of Sale system, everyone on my staff can handle the selling, packing, delivery, and billing of a customer's order. There is no waiting for a computer generated invoice. Over all our productivity is up and our employee costs are down. ProTrac's Business Model has helped us be profitable when the economy is making this a difficult task. With ProTrac I am able spend my time managing the business, not micro-managing the day to day operation.

Look forward in doing business with you now and in the future.

Thank you,

Hutch Galloney, Halls Mobile, AL Since 1920
